

Endangered Places Scoring Matrix

The weighted matrix for scoring a nominated listing consists of the following three values:

- Heritage Value (40%)
- Risk Assessment (40%)
- Potential for Rehabilitation/Adaptive Re-Use (20%)

The scoring for each category will be a scale of 1 – 10 and will be determined solely on the quality and content of the information provided in the submitted nomination package.

Endangered Place			
	Weight %	Score (1-10)	Weighted Score
Heritage Value	40%	0	0
Risk Assessment	40%	0	0
Potential for Rehabilitation / Adaptive Re-Use	20%	0	0
Total			0
